Dear Frits and Ida:

I imagine you will want to have this check!

We have been having a most hectic time the past month or two, especially with the symposia here and in Gatlinburg, but are settling back to work with Cavalli, who will be here until end of June.

It is rather definite now that we will be coming to Stockholm this summer and we hope to have a good chance to see you. We will probably have to rush from Paris leaving there August 2 to reach Stockholm by August 4. We are planning to spend a few days in Stockholm after the congress, and hope we can return via Copenhagen to visit you then. This would be sometime around August 13-15; our plans are not yet fixed at all. How do they fit with yours?

I hope the new set of cultures has fared better for you than the stolen one. What an experience! But as you say that is what you get for having an American car.

Very rushed now; we will write you further when our plans become definite.
